TASK LIST
FOR
CHRISTINE BETTY

TASK LIST

General Principles (Applies to All Visits)

- Approach Christine calmly, respectfully, and at her pace.
- Build rapport before commencing any care tasks.
- Use clear explanations rather than repeated questioning.
- Maintain dignity and reassurance at all times.
- Engage respectfully with Christine's husband, Derek, during visits.
- Use PPE appropriately and dispose of safely after each visit.
- Accurately document all care provided, observations, and any variances.
- Escalate any concerns promptly in line with company procedures.

TASK LIST

Morning Visit Tasks

Personal Care

- Offer and support with personal care in line with Christine's preference:
- Bath or strip wash
- Oral hygiene
- Hair care
- Dressing into clean clothing
- Provide reassurance and encouragement throughout.
- Allow sufficient time; do not rush.
- If personal care is declined or reduced:
- Respect Christine's choice
- Offer reassurance
- Document clearly what was offered and what was accepted
- Escalate if this represents a change from her usual engagement

Medication

- Prompt Christine to take her morning medication in line with the MAR chart.
- Observe for refusals, side effects, or concerns.
- Record medication prompting accurately.

TASK LIST

Nutrition and Hydration

- Prepare breakfast and a hot drink.
- Encourage fluid intake.
- Observe appetite and report concerns if noted.

Wellbeing and Safety

- Observe Christine's mood, alertness, and engagement.
- Ensure mobility aids (zimmer frame / commode) are within reach.
- Check the environment is safe and uncluttered.

TASK LIST

Evening Visit Tasks

Personal Care and Settling

- Support Christine to change into nightwear.
- Assist with any accepted hygiene tasks as required.
- Provide reassurance and calm interaction.

Medication

- Prompt Christine to take her evening/night-time medication as per MAR chart.
- Record medication prompting accurately.

Nutrition and Comfort

- Prepare a hot drink.
- Leave snacks accessible if appropriate.
- Ensure Christine is comfortable and settled.

Safety Checks

- Ensure zimmer frame and commode are within reach.
- Check lighting and environment for safety.
- Support Christine to settle safely for the night.

TASK LIST

Ongoing Monitoring (All Visits)

Physical Health

Monitor for:

- Changes in mobility
- Signs of pain or discomfort
- Skin integrity concerns
- Changes in appetite or hydration
- Mental and Emotional Wellbeing

Observe for:

- Increased confusion
- Anxiety or distress
- Agitation or withdrawal
- Use de-escalation techniques if Christine appears unsettled.

Communication and Escalation

- Escalate concerns in line with company procedures, including:
- Any incidents or near misses
- Changes in behaviour or presentation
- Medication concerns or repeated refusals
- Decline in engagement with care

TASK LIST

Documentation Requirements

Complete care notes for every visit.

Clearly document:

Tasks completed

Tasks declined

Christine's mood and presentation

Any concerns or changes

Ensure documentation is factual, timely, and professional.
